

446 EAST 58TH ST. NEW YORK PLAZA 3-3720

July 27, 1987

Greetings from 446. Things have been going very smoothly in the administration of my father's estate. I can't believe the support and encouragement I've received from everyone who knew him.

I have recently returned from the Virginia countryside, where I left father. Now I am focusing on the final disposition of his property in New York and the settlement of his estate.

Lenka and I are trying not to sell any of father's collections - they are too wonderful to let go of. We must, however, satisfy creditors and sell something. In that father was in the process of trying to sell his magnificent shell grotto in order to move to the country just before he died, we are following his lead and putting the grotto on the market.

Any ideas that you may have as how to get the grotto a nice new home would be greatly appreciated. Feel free to contact me at the number below any time you wish. Be as outrageous as the grotto itself in your ideas. Don't hesitate to consider purchasing the grotto yourself.

Very Truly Yours,

'Spike'
