Dear Seymour,

It was so good to talk with you on Wednesday. I truly appreciate the call and particularly the opportunity to speak with "The Expert" in the field.

I talked with Deborah McLeod yesterday and we discussed a number of your suggestions. We both agreed we should have started last fall by a call to you! She is eagerly waiting the arrival of your information. (on-site)

We have a meeting set up for next Wednesday with reps

from two local Uniersities +  
four local architects to try to  
come up with some alternate  
solutions for the city.

I am enclosing copies of the  
pages from the "Fascinate  
Visions" catalogue that concern  
Anderson Johnson and the  
brochure that was sent out,  
which includes his painting. Also,  
some copies of pics I have  
of the house - unfortunately, I  
cannot locate the negatives!

Also enclosed, a copy of catalogue  
of a show Baron and I worked  
last spring in Virginia Beach.  
(Remember, it was our first attempt.)

Again, sincere thank square -  
will talk soon.

Baron joins in sending  
warm regards.

Stiu
