December 30, 1976

Dear Mr. Gabriel,

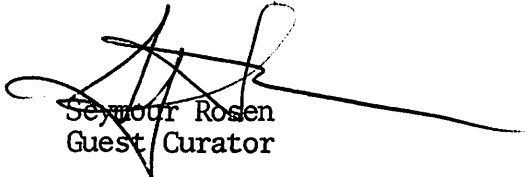

I would like you to know that photographs of your wonderful wooden garden are being shown in an exhibition called "In Celebration of Ourselves - California" at this Museum. Your garden is one of my favorite pieces in this exhibition and we have used a photograph of the garden as the poster.

Thousands of people who could never have gotten to Eureka have come to the Museum and enjoyed your work.

I am very sorry that we have never met. I have spent many enjoyable hours in your garden. I hope to come to Eureka again soon and will try to see you.

An awful lot of people really care about and respect what you have done.

My very best,

Seymour Rosen  
Guest Curator

A Museum of Modern Art
