Here they are
as you can see
Photos of you
and some of me
And some of Nancy
up your tree

Dear Miles,

I hope this letter finds you well.

I ~~am~~ still working on the exhibit I told you about when I visited in August. The current dates for the show are December 3, 1976 to January 23, 1977 at the San Francisco Museum of Modern Art. I hope you have a chance to get to San Francisco during the run of the show. Please let me know if you plan on it.

In the meantime, I need some more information from you ~~for~~ my records and for captioning photographs in the exhibit.

When and where were you born?

When did you begin writing poetry?

Are you still writing poems and are you still working in your yard?

The photos I took are just a shadow of your work and it would be great to include one of your wooden signs in the exhibit. Would you be willing to loan one of your poem signs?

If it is more convenient, Miles, please answer the questions on this letter. We will send you an invitation to the show, "In Celebration of Ourselves", prior to the opening. I will be in touch.

Yours,

P.S. Thanks for the photos - I will return them when I finished w/ them
