

1 April 1988

William Kobin, President
KCET
4401 Sunset Blvd.
Los Angeles, CA 90027

Dear Mr. Kobin:

~~It is much more difficult to write a fan letter than to write one that duns an organization, but~~
This will be an overdue fan letter for Huell Howser.

Mr. Howser has been most helpful in trying to save California State Landmark #939, John Ehn's Old Trapper's Lodge. His care, concern and support have continued after his piece for Videologue was completed. The extent of his participation has been a unique experience for us and a rewarding one for the family of the artist.

Videologue is one of the few productions on KCET which is reflective of the community. This production is greatly appreciated by those of us who enjoy all the "foreign" productions, but think it is most important for the station to report on what goes on in the Los Angeles area.

Considering the vitality of Los Angeles, Howser should be encouraged to do many longer pieces on this place. My mini survey says your public is far more interested in Los Angeles than yet another nature series.

Sincerely,

Seymour Rosen
Director
