Paul: A note to tell you that the Smith Show has been a great success! and it was great to have your photographs here! Now I have all the photos here in a pile and I would like to know what you would like to do with them! — They are all mounted on "Foamcore" (4") and are fragile — altho it would make a good travel show for you — I suggest you show the set at some local gallery or corporation area where you will gain some good exposure — The photos are all excellent. Please let me know how you feel!

I was sorry you couldn't make
it to Mass and give the talk. But
I know you'll be around the area
sometimes — perhaps I can call you
when I am in Chicago!

Hope your cottage gets sold! — it's
a problem to sell in the Fall so
I guess you'll set a good price in the
Spring.

in a Rush:

Best love to
you both

Ann's
