Dear Friend,

Did you see the article about Paradise Garden on CNN's Website Recently? We are honored to be called the South's most inspired garden and also viewed by CNN as a top travel destination.

I remember seeing the garden for the first time and it had an amazing impact on me. How has Paradise Garden inspired you? There are so many inspirations to be found from Paradise Garden.

It is amazing to know that a place can have so many impacts. Many people would not have been able to visit the garden and be inspired if it were not without support by people like you. We know that what exists here in Pennville, Georgia, is not just a collection of cast off objects but rather a "creative vortex" that shows us all that we all have gifts to give.

It's been close to three years since the start of our revival project and so much has been accomplished. Together this past year we were able to:

- Bring dozens of clubs, groups, and churches to visit Howard's Paradise Garden
- Create public art locally in downtown Summerville
- Host the Largest Finster Fest yet!
- Archive our extensive collection of works
- Discover and repair many lost and forgotten pathways
- Light the garden for nighttime tours
- Bring contemporary art collections for display to the local community
- Host artists to the garden as part of our Artist in Residence program from as far away as Alaska
- While so much has been done you can help us continue the work of the Paradise Garden Foundation.

Paradise Garden needs your help to continue the revival of "The South's most inspired Garden". Please contribute \$20 or more to help us continue the Paradise Garden Foundations important work.

Together we will continue to have Paradise Garden Inspire!

Sincerely,

Jordan H. Poole
Executive Director,
Paradise Garden Foundation
