

In answer to your letter, my husband had a spiritual 'vision' of a garden. We told our church about this, and they agreed to help build it. We started it in the summer of 1982. It took us a year to build it. It is open by Memorial Day every year, for any who would like to see it. It has running water and lots of flowers. Also, a statue of Christ and three crosses on a mound. It was built out of rocks, taken from the fields of farmers all around this area.

We also have a roadside chapel in front. Thank you for your interest in our 'Garden'.

Mrs. Alan Moody
