

Sunnyslope Rock Garden
10023 N. 13th Place
Phoenix, AZ 85020

June 27th 1991

Dear Seymour,

I thoroughly enjoyed our celebration last evening. The people who attended were delightful. The only improvement I can think of is if you had been here!

When I phoned, last - I now realize I was misinformed - or possibly I had heard what I wanted to hear. In any case, an A.S.U. student did nominate the Garden for H.P. status. However, the nomination has been placed in the Garden file in the Office of Historic Preservation and it may not be processed for a long time.

My Councilman is a strong supporter of the Garden, and his staff is attempting to achieve the H.P. status for the Garden before his term is up; which is 1-1-92. I am attempting to gather support for the Councilman so that he can overcome the remaining hurdles. His address is:

Alan Kennedy, Vice Mayor
OFFICE OF THE PHOENIX CITY COUNCIL
251 West Washington Street
Phoenix, Arizona

Deborah Abele, the Director of the Office of H.P. told me on Monday the the members of the H.P. Commission is conservative and that once it goes through their process, she also questions whether it would succeed in passing with the Phoenix City Council. I have the suspicion that it may be her own preference or lack thereof which is affecting the situation.

Kathleen Templeman, the attorney who has called you for guidelines, has been a great help to me! It was fun to collaborate and come up with a team effort. It proved that sometimes two heads are better than one!

Thank you, Seymour, for being who you are and helping in the many ways you do!

Marion
