

November 20, 1991

Dear Seymour,

at last, I'm sending you a copy of the letter I wrote to the New Port Examiner. It seems I've been exceedingly busy - but I can't recall exactly what I've been doing.

I'm also sending you a recent newspaper article. The people who live in Sunnyslope are beginning to have some confidence in me.

I guess what you said is true; if they see it in print three times, they believe it. - (anyway, those who can read)

I have only 11 students this year, so I spend my extra minutes thinking about the Garden. I might apply for a grant from the Phys. Art Commission.

Marion

(OVER)

1. Have you seen the video on The Garden?
It was produced for the show at ASU in 1988.
Would you like a copy?
2. I got the idea that it would be neat to
have cards - (like baseball cards) made up
with the wonderful Rock Garden images
on them. What do you think?
3. I'm making stamps - kind of - do you
know where I can get a more authentic stamp
printed with glue on the back?
