I spoke with a neighbor who had
called to express her support for the
recognition of the Garden, and she told
me that Deborah Akeke had gone on
at great length, telling her that the
Garden is not 50 yrs. old. It mystifies

me that they bothered going through this process when apparently they already had made their decision.

However, I have gotten some beautiful letters & articles - and the prospects of TV & magazine coverage. So, all is not lost, and I suppose at times things happen which you least expect.

I do appreciate it that I am able to rely upon you for the very best advice and expertise!
Thank you!

Marcion
