Ms Linda Gill
780 N.W. 25th Street, #15
Corvallis, Oregon 97330

Dear Ms Gill,

SPACES is a non-profit organization which attempts to preserve, and to collect information about, "folk art environments"--those bits of magic created by ordinary people which are extraordinary works of art, such as the Watts Towers in Los Angeles.

Your uncle, Loran Finch, tells us that you have taken many photos of his personal creations. We very much admire his work, and are keeping a file on his art. We think his work is important and very special. Would it be possible for you to write, at your convenience, and tell us about your photos? We'd like to know how many photos you have taken, when they were shot, and to what extent they cover the entire body of his work or portions of it. Are your photos in color or black and white?

This information would become part of our files, to be used only by those people who are serious and sincerely concerned for the preservation of folk art environments.

Thank you for taking the time to tell us about your photos. If you have any questions about this request, please do write. We look forward to hearing from you.

Sincerely,

Seymour Rosen
Director
