Grover Cleveland Thompson Museum  
10023 North 13th Place  
Phoenix, AZ 85020**

Jan. 3, 1993

Dear Seymour,

Thank you for straightening out my thought process and keeping me from spinning my wheels again, with regard to the application for the National Register.

Last night I tried calling "Strunk Hollow" in Glendale, and amazingly, I found Mrs. Strunk home. She would like to become associated with other sites in the state, and on Thursday she will have a selection of photos for me to borrow and copy to go along with a history and a listing of publications and awards. So, I will have one more site on the Roster before long. I will make an extra set of copies of the photos for you. She said that the inside of the house is also rather eccentric. Her husband has done the work, and they have been in Glendale since 1976.

So, today I called Jim Griffith, and he answered the phone. He told me that he will be in Phoenix next month, and when his exact plans are solidified, he will let me know because he wants to see the garden. Can you imagine that?

Two miracles.

The casino in Laughlin with the Ronesque entrance to the Restaurant is the Golden Nugget. Anyway, that is what my friend says.

It is a most glorious day today. 74 degrees, and the deepest blue sky, just a little lighter toward the horizon. A day to put in a bottle.

I'd better call someone else who is hard to reach. Maybe today I'll catch them.

See ya'.

*Muir*

P. S. I've made some stamps of some of the garden people.
