FINAL INVOICE

Please remit

25 hours at \$75 or \$1,875.00 The 25 hours were expended after October 28 analyzing the 200 or so entries on the list of sculptures and columns, determining the areas, number of cracks, labor hours required to clean surfaces and fill cracks, perform a preliminary phase, estimate labor and foremen costs, professional time and costs, materials and equipment and costs, total costs by individual sculpture and overall total and schedule for tasks and complete the A&E Report with photos, charts and graphics.

Please send whatever is the remainder of the \$26,750 grant less the amount due Zuleyma Aguirre as soon as possible.

Dear Seymour,

I have completed the Las Pozas A&E Report and have a master of all photos, charts, maps, etc ready to go for copying. Charlie Chan (see note) is the winning bidder for the copies. Twenty will cost about \$300. But don't let that bother you, all I want is whatever part of the \$1,875 due me for 25 hours of my time.

If possible send me a check at your earliest convenience for my expenses and whatever of my \$1875 is left. Since November 1, 1998, I have used 139 hours doing Las Pozas A&E Report work. That would amount to \$10,425. I guess you may keep the change?.

If you do not have all the recent invoices, it probably doesn't matter since I shall not be paid for most of my expenses anyway.

Thanks,
Bud Goldstone

Note Chan's color copies for 20 or so of one master is 75c. There are 30 pages in the report with 14 pages of color so the 20 reports will be about 14 times 75c times 20 (\$210) for color pages plus 16 pages times 20 times cost of regular copying of 320 pages at .07 or so or \$22.40 so the subtotal (without covers) is \$232.20 Covers (cheap) will be about \$4 each another \$80 or total about \$320.
