THE JARGON SOCIETY, INC.

March 20, 1983
Highlands NC 28741

Seymour Rosen, Director
SPACES
1804 North Van Ness
Los Angeles, California 90028

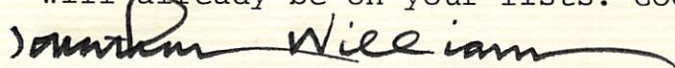

Dear Mr. Rosen,

Thank you for the information about SPACES and the newsletter about California, etc. I am enclosing \$25 to become a Sponsor and look forward to receiving a copy of your book and more news, etc.

I have also enclosed a bit of information about the JARGON SOCIETY. It has been devoted to the work of 'solitaries' too, but of those working in poetry and photography.

I think you will have had a letter recently from Tom Patterson in Atlanta, explaining that we are going to do a little book on ST. EOM'S "LAND OF PASAQUAN". EOM (Eddie Owens Martin) is a bodacious gentleman of 76 years in the country outside of Buena Vista, Georgia. Very flamboyant he is-- Walt Whitman with some Seminole blood. The place is one of the best I know in the entire country. He worries about what will happen to it in future. Our book is designed to draw attention, but an organization like SPACES will clearly enhance our modest effort.

I know more sites in the USA and in Europe than most people do and I've been photographing them for nearly 30 years. I try to be a poet mostly but the world is not that simple, so I publish, photograph, travel, and talk and listen. I'm enclosing a list of others who are very keen about folk, art, folk-art and good things in general. Please send them information. I assume many will already be on your lists. Good luck.

Jonathan Williams,
Director
