EHN TRUST - DBA "OLD TRAPPER JOHN"  
Appraisal for "OLD TRAPPER JOHN EHN" Folk Art Environment

APPRAISAL VALUE \$153,823.00

On May 22, 1986, an appraisal was done by Larry Whiteley in which I, Kim Kraij, assisted, in order to determine the value of both the inside and outside contents of the "OLD TRAPPER JOHN'S LODGE" located at 10340 Keswick Street, Sun Valley, CA 91352. At that time the appraisal estimate was 118,330. Given the publicity and exposure the artwork has received since that time, along with its acquisition by Pierce College keeping the environment intact, the original estimate has been increased by 30%. "OLD TRAPPER JOHN'S LODGE" has become one of the more significant folk art environments in the United States being recognized by such museums as the Museum of American Folk Art in New York City. My qualifications as an appraiser consist of my business, for which I deal in American folk art, and myself have acquired several important folk art environments, I recognize the "OLD TRAPPER" environment as an outstanding contribution to American Folk Art in the United States, and I'm pleased to see the environment will remain intact and be accessible to the public.

Kim Kraij
