Dear "Dr." and "Capt." -

A friend told us to stop by and meet you. We walked around and no body was home - the place is really "nifty!" We never saw so many different things - things that grow and things you've built. Thank you for building it and letting us look around. Sorry we missed you. I am a "girl" photographer & my boyfriend is a furniture designer. We can stop by another time and look

say hello. Hope you are well and happy. This place is so beautiful. We are from Los Angeles, and have nothing nearly as peaceful or enchanting.

Take care -

Bonnie Jay and Richard Peters
