

Commercial Filming Guidelines for Salvation Mountain

Salvation Mountain Inc. is a non-profit charity (EIN #45-4106863) that is charged with the preservation and promotion of the life work of Leonard Knight, including the site of Salvation Mountain at Slab City, California ("The Site"). This work is funded solely by donations. Leonard Knight's message is one of Universal Love, which the Board of Directors endeavors to continue. The Film Coordinator for Salvation Mountain Inc. will work with Filmmakers to create the best experience for all parties involved in the production, including the filmmakers and the public at the Site.

The following guidelines shall apply to all commercial requests for filming ("Filmmakers") at The Site, including film and/or digital recordings for features, television, still shoots, reality shows, music videos, commercials, and documentary productions ("Productions"). Amateur photographs taken for purely personal, non-commercial use are exempted. Please note that, in accordance with Leonard's wishes, there shall be no nudity, violence, drug use or explicit sexual activity depicted in content filmed at The Site.

Application:

All Filmmakers must submit a filming application for Productions at The Site. The application must be provided to the Film Co-ordinator of Salvation Mountain Inc. by fax, email, or in person before the start of production.

Permits and Insurance:

It is the responsibility of all Filmmakers to obtain film permits from the Imperial County Film Commission office and the Niland Fire District. All Filmmakers shall provide proof of minimum \$1,000,000 liability insurance.

Suggested Donation:

Suggested donations take into consideration a number of factors, including the size, duration and complexity of The Production, the number of vehicles, personnel and equipment to be used at the Site. One of the most significant factors is the Production's interference with public access to the Site. The designated Salvation Mountain Inc. location manager has the authority to limit the scope of the shoot, to be included in artistic discussions with the Filmmakers and to enter into sub-contracts at the Site with the Filmmakers on behalf of Salvation Mountain Inc. should the Production go beyond the scope of the initial application.

Suggested donations are as follows:

½ day (6 hours) \$500

Full day (up to 12 hours) \$800

Hourly rate: \$150

Oversight:

A designated Salvation Mountain Inc. location manager (SM caretaker, board member or other) shall be on site for the duration of the shoot, including set up and strike, to monitor activity and compliance with all applicable permits and guidelines.

Copies of Product:

Part of the mission of Salvation Mountain Inc. is to document and preserve the work of Leonard Knight. Salvation Mountain Inc. requests copies of photographs and videos, where feasible, to use in print and digital communications. All copies will be properly credited.
